

Bobtail Clear Vision Enclosure

Enclosures designed to put you on the road to safer, less expensive bobtail operation!

Safety is important... to everyone!

Our new Clear Vision Enclosure (CVE) sets the standard for helping you put a safer, lower-maintenance bobtail on the road!

- Only 43½" wide compared to the original 96" on traditional decks.
- Better visibility due to reduced blind spots.
- Can incorporate pullaway protection.
- Fill hose connection is ergonomically correct.

Maintenance Friendly!

- Can be used with an existing tank.
- Piping can be accessed in less than 10 minutes.
- Equipment is fully covered and protected from harsh weather conditions.
- Less piping than traditional decks meaning lesser chance of corrosion.
- Lower cost than traditional enclosures
